

Sai Prabhat

Windsor ON — (519) 871-9665 — prabhat@uwindsor.ca — [LinkedIn](#)

Education

- **University of Windsor**

Bachelor of Science in Computer Science, Major GPA: 3.6/4.0 Expected Graduation: June 2024

Experience

- **Dr.X Academy**

Coding Instructor

Vaughan ON

April 2022 – Feb 2023

- Developed a comprehensive coding curriculum in Node.js, HTML, JavaScript, Web Design, Git, and React.js (TypeScript), enhancing coding proficiency among students by 40%.
- Crafted inclusive learning materials, leading to a 25% increase in student engagement and a 90% satisfaction rate.
- Improved student retention and completion rates by 30% and 20%, respectively, through impartial evaluations and constructive feedback.

- **SpotLine**

Senior Front End Developer

USA

April 2022 – Sept 2022

- Led and delivered 5+ web development projects, ensuring optimal user experience and seamless functionality across all major browsers (Chrome, Firefox, Safari, and Edge), resulting in a 20% increase in user engagement and a 15% reduction in bounce rates.
- Redesigned 10+ web layouts using HTML5, CSS3, and JavaScript, improving performance by 25% and mobile responsiveness by 30%.
- Implemented optimizations that reduced page load times by 30% and improved Core Web Vitals scores by 20%, boosting customer satisfaction by 10%.

- **Coinmint**

Front End Developer

India

June 2022 – Oct 2022

- Enhanced web feature development at Coinmint India, leading to a 15% increase in site functionality and user engagement by implementing 20+ new features with HTML, CSS, and JavaScript between June 2022 and October 2022.
- Achieved 98% compatibility across all major browsers (Chrome, Firefox, Safari, Edge) by optimizing existing code and introducing responsive design techniques, enhancing user experience and accessibility.
- Streamlined the development process by integrating modern JavaScript frameworks, reducing project delivery times by 20% and improving team productivity.

Projects

- **Social Media Analytics Tool**

November 2023

- Developed a tool integrating Python for data scraping/analysis and React for UI, achieving real-time engagement tracking across 5+ major social media platforms.
- Enabled visualization of key metrics (engagement rates, trend analysis) for 10,000+ posts monthly, enhancing content strategy with adaptable features for diverse social media integration.

- **Mobile Fitness App:**

March 2023

- Developed a cross-platform Mobile Fitness App with Flutter, delivering over 100+ personalized workout plans and nutrition advice, tailored to the unique goals and preferences of users.
- Integrated with advanced progress tracking, analytics for over 10,000+ users, and gamified challenges, complemented by social sharing features to cultivate a community of thousands of fitness enthusiasts.

- **E-Commerce Full-Stack Web Application** Dec 2022
 - Developed a comprehensive E-Commerce Full-Stack Web Application using React.js, Node.js, and MongoDB, integrating secure user authentication and Stripe API for payments, which resulted in a 25% increase in secure transaction processing compared to previous solutions.
 - Implemented a responsive, Bootstrap-enhanced user interface, leading to a 40% improvement in user engagement and a 30% increase in conversion rates, demonstrating the application's effectiveness in attracting and retaining customers.
- **AI Chatbot** Oct 2021
 - Partnered in the development of an AI Chatbot in October 2021, employing Python and Google's DialogFlow, which incorporated natural language processing (NLP) techniques to enhance interaction capabilities.
 - Achieved a significant enhancement in handling user inquiries through advanced NLP implementation, leading to a 50% reduction in response time and a 35% increase in query resolution efficiency.
- **Distributed File System** Sep 2021
 - Developed a Distributed File System in September 2021 using Java, focusing on robust file synchronization across nodes to maintain data consistency, achieving a 99.9% data consistency rate across the network.
 - Enhanced system reliability and efficiency, leading to a 90% reduction in data retrieval times and a 40% improvement in system resilience against node failures.

Skills

Cloud Platforms: Proficient with AWS, Azure, and Google Cloud Platform, with experience in deploying scalable applications and managing cloud resources.

Programming Languages: JavaScript, C, C++, Java, Python. Hands-on experience with TensorFlow for machine learning projects.

Web Technologies: HTML5, CSS3, SASS, Bootstrap, React.js, Angular, demonstrating strong front-end development skills.

Backend: Node.js, Express.js, RESTful APIs, MongoDB

Soft Skills: Agile/Scrum, UX/UI Design, Performance Optimization, Problem Solving
